New aluminium workshop

PAY

**Excellent hourly rate,
by experience / trade test**

LOCATION

**Long Bank, Droitwich
WR9 9AN**

About Us

For over 50 years, Roger Dyson Ltd has been manufacturing recovery systems, and we are proud of our history and our reputation for quality. Due to further expansion and a new aluminium workshop, we are looking for 3 more aluminium fabricators to join our team in Droitwich.

The Role

You will fabricate aluminium beds and ramps for commercial recovery vehicles, and flyers, using MIG and TIG welding. The aim of the job is to achieve output targets safely, to a high standard of quality and within build deadlines.

What You Will Be Doing

- Fabricate aluminium beds and ramps for commercial recovery vehicles and flyers (MIG and TIG)
- Carry out plasma cutting, oxy-acetylene cutting and manual press brake operations
- Use hand tools, including grinders and drills
- Read and interpret engineering drawings
- Work safely and to a high standard to meet output targets and build deadlines

About You

- Experienced in fabricating aluminium, with MIG and TIG welding skills
- Experienced in plasma cutting, oxy-acetylene cutting and manual press brake operation
- Confident using hand tools such as grinders and drills
- Able to read and interpret engineering drawings
- A good team member who works safely and takes pride in quality

What We Offer

- Excellent hourly rate, depending on experience and trade test
- The chance to join a brand-new aluminium workshop at a growing Droitwich manufacturer

HOW TO APPLY

Please send your CV and a cover letter to career@rogerdyson.com
