WR9 9AN

About Us

For over 50 years, Roger Dyson Ltd has been manufacturing recovery systems, and we are proud of our history and our reputation for quality. Based in Droitwich, we are growing our Sawmill team and are looking for a new colleague to join us.

The Role

We are looking for a hardworking, safety-conscious Sawmill Operative to join our production team. You will operate sawmill machinery, process steel and aluminium to specification, and help keep our working area clean and efficient. This role suits someone who enjoys practical, physical work and takes pride in doing a job well. Full training on our machinery is available, so if you are willing to learn, we would like to hear from you.

Key Responsibilities

- Operate sawmill machinery, including the saw, guillotine and press brake
- Measure and cut steel to the required specifications
- Sort and stack steel and aluminium to company standards
- Assist with loading and unloading steel and aluminium deliveries
- Carry out general yard duties as required
- Follow all health and safety procedures, including PPE requirements
- Keep your work area clean and organised
- Work with the team to meet daily production targets

About You

- Able to operate sawmill machinery, or willing to learn
- Good understanding of health and safety practices
- Physically fit and comfortable with manual handling
- Strong attention to detail and quality
- Able to work independently and as part of a team
- **Desirable:** a valid side loader and forklift licence

HOW TO APPLY

Please send your CV and a cover letter to career@rogerdyson.com
